MANUFACTURING NETS /DEVELOPMENTS - CD ROM PACKAGING

V.Ryan © 2010 World Association of Technology Teachers

1. CD ROM / DVD packaging is manufactured in large quantities, every day. What is the name of this type of manufacturing / production?

2. What is the name of the type of cutter normally used to manufacture card nets for CD ROM / DVD packaging.

3. The diagram shown below represents the manufacturing process concerned with cutting the developments / nets. Write notes that explain the entire process, as shown in the diagram. You can add additional labels to the diagram.

4. When CD ROM / DVD packaging is being manufactured, the graphics and text are printed on to the card before it is cut to shape. Name the type of printer used and describe the printing process.
