DRINKING WATER BOREHOLES

V.Ryan © 2009 World Association of Technology Teachers

1. Explain why the number of water boreholes is likely to increase, not only in dry areas of the world, but also in areas with a temperate climate. You may wish to mention domestic users as well as agricultural users.

2. List the procedure for drilling a domestic borehole.

3. Add the missing labels to the diagram below.

4. What is the role of the filters built into the borehole system?
