COMPUTER AIDED DESIGN SHEET

PRODUCT: MODERN TABLE

This sheet shows how I have used CAD to help me design.

SOFTWARE USED: GOOGLE SKETCHUP

NOTES: This design is modern and unusual. It combines the functions of a typical coffee table but has very different supports/legs. The broad legs provide stability making the table very difficult to push over.

SOFTWARE USED: GOOGLE SKETCHUP

NOTES: This is a traditional table, with the usual four legs and glass top. It is sturdy and functional and can be manufactured cheaply from woods such as mahogany, pine and oak.
