# HAPPY BIRTHDAY - POP-UP CARD

V.Ryan © 2010 World Association of Technology Teachers

A basic pop-up card is drawn below. It is a prototype birthday card. Add appropriate colour and shade to the pop-up candles as well as any relevant detail (e.g. decorations). The final greetings card should have detail, colour and shade and relevant text to all sides of the card. Cut out the pop-up and glue it to the 90 degree lines.

Test the final prototype and write an evaluation on how it works. Include any improvements you would make.

Add the following lines of text / phrases, using a suitable style of writing.

**TO:**

**HAPPY BIRTHDAY**

**FROM:**

Write a suitable verse and add it to the card.

Be careful where you write the text. It must be clearly seen when the pop-up opens as the card is opened.
